President's Newsletter May / June 2019

- 1...I have combined May and June in this Newsletter as I had a very busy June, so I apologise for this.
- 2...Class attendance is a very concerning problem, the committee is trying it's best to address this. We are also find that with our Volunteer Instructors taking leave, this effects the classes we can post in some Terms.
- 3...We have been successful in receiving 3 Government Grants. One for purchasing a commercial printer and 2 to recruit new Seniors into our Club to introduce them into the Technical World we face today. The Government is committed to our Seniors using this Technology in their everyday life. As Society advances into the 21st Century Seniors must adjust.
- 4...With these last 2 Grants, the Clubs Publicity Team will place Advertismment on Radio and in Local Newspapers. The Daily Examiner will also feature an Editorial on the Club. Hopefully this will increase our membership, and therefore class attendance.
- 5...Bob MacPherson and Christine Philp our Publicity Team (Christine is now a Management Committee Member as Nina Fant has resigned as a Committee Member), Have organised an Information Booth at Yamba Fair Shopping Centre for Thursday the 1st August 2019 and an Open Day Information on Wednesday 7th

August between 10am-12noon at Treelands Drive Community Centre Yamba. So please inform your non-member friends of these dates.

6...Following is from the Club's IT Officer Gavin Loy.

The club has installed a new commercial printer to replace our current printers.

Committee has decided to offer the current range of used printers to members.

Our IT officer Gavin has placed a valuation price on each one.....will be sold first in first owned.

2 x Kyocera ecosys M5521CDW colour laser printers.....\$200.0 each

1 x Brother MFC-J4620DW inkjet colour printer.....\$80.00

1 x Brother MFC- L2710DW Laser Monochrome (black & white).....\$80.00

Samsung CLX-3305 colour laserthis printer needs a new imaging or drum unit at a cost of \$100.00 but is a beautiful printer and only asking..... \$50.00

Computers will be held until end of July and will then be auctioned to highest bidder.

To check details of printers log in to ebay and google the model number.

7...The Management Committee has decided that the Term Leaders is confusing, and that the term Volunteer Instructors is better suited.

8...If any Club Member wishes to become an Volunteer Instructor on any of the Subjects relevant to our Club, please contact our Programme Officer Bob MacPherson. All help will be greatly appreciated.

9...Club Members went on an Excursion to Cardiff Alpaca Farm on Harwood Island. Morning Tea was paid for by the Club but Lunch was paid for by attending Members. It was a Great Day as following Photo shows.

10..Term 4 has commenced, but there is still time and vacancies to attend. So please sign up to attend, the club needs attendance to increase to survive. That is why these Government Grants are needed to recruit new members.

11...The Management Committee has asked IT Officer Gavin Loy to investigate the cost of installing Microsoft Office 2019 on Club Computers. The Club's Objectives is to teach the New Technology Available to our Members. We currently have Microsoft Office 2010 installed, it's time to update.

12..Always be alert to Scammers, if it sounds to Good To Be True then it is a scam. If in doubt don't, call someone before sending any money or details. Banks and Government NEVER asked for confirmation of personal details by Emails.

13..The Club is here to assist you in all aspects of todays communication Technology. So please use our assistance.

Your Club is Your Gateway to Learning and Understanding.

President Dennis
