President's Newsletter August 2017

1...The Bus Trip to Evans Head Memorial Aviation Museum was a great success, and thoroughly enjoyed by all.

The morning tea stop at New Italy was a welcome break on our journey, then the museum and finally lunch at Evans Head RSL club. The \$10.00 lunch menu was great and the Salad Bar included made it great value. We can recommend this Trip to all.

To see this history making F111 up close and to hear all the information from an ex RAAF pilot all the better. Then we went inside a Caribou Aircraft which our guide had flown. This was another highlight of our visit. The Club paid for entry into Museum, the Bus Hire and the drivers fee. The members paid for their own Morning Tea and Lunch.

We hope to organise another Bus Trip next year so offer some suggestion where. We can all thank Member June Alexander for suggesting this one and even suppling contact numbers to organise. We all thank June and Bus Driver Steve Walton for a GREAT DAY.

2...Gavin Loy has connected the Club to our own ADSL2 Internet with a new Modem and a WI-FI back-up with Telstra. The new speed is up there with the best and we have 500GB of Data per month 5 times more than we had from Council. Also with the interest in Mobile Phones IPads and Tablets showing in our classes the clubs downloads are increasing. We are very gratified with the council's free internet all these years, and would not be where we are today without their help. But our demands have change with the usage within the club and it was time to advance with the times.

With the weather warming up it is time to come and play in class

President Dennis
