President's Newsletter May 2018

1...During the May break Gavin Loy and his IT Team updated all of the club's computers. The main thing to remember with Windows Updates, is they update your Windows Defender anti-virus protection. As that is important to have the latest protection against the latest viruses.

2...Jenny Crerar one of our Leaders and Committee Members has resigned, as her and partner Wayne are moving North for family reasons. She will be sadly missed, she was a great asset to the club. Thank you Jenny, we wish you well in your new adventure.

3...Class attendance is still very poor, with less than 50 members attending a total of 15 classes a week. And our Financial Members totalling about 180. The figures are not good. The Committee has tried to address this problem with new subjects and new devices, but has not changed the trend. If you can suggest any changes that will help members to become more active within the club, please let us know. Contact Vice-President/Programme Officer Bob MacPherson or myself, or any committee member or leader with your suggestion.

4...The committee has decided to hold another Open Day on 4th July 2018 at the Civic Hall. If you have friends that may be interest in joining our club, please bring them

along. For an introduction to the club, and the leaders and their subjects

6...The Lawrence Museum Day trip was a great day, with morning tea at museum and a couple of hours viewing their exhibits. Then lunch at Lawrence Tavern the following are some photos of the day.

Please inform myself of any suggest where we can go on day trips during the term breaks.

There is an old saying use it or lose it.

President Dennis
